NORWAY–TÜRKIYE: BUILDING THE NEXT CHAPTER OF MARITIME COOPERATION

Even Tronstad Sagebakken

State Secretary, Ministry of Industry, Commerce and Fisheries

A Norwegian government perspective on maritime cooperation, green transition and industrial partnerships.

16:11

OPENING FRAMING

Dilek Ayhan

Founder & Managing Director, Ocean House

Where our capabilities meet: exploring opportunities for closer maritime cooperation between Norway and Türkiye.

02 16:14–16:34

SETTING THE SCENE

16:14

SHAPING THE FUTURE OF GREEN SHIPPING

Andreas Enger

CEO, Höegh Autoliners & Chair, Norwegian Shipowners' Association

A perspective on the Norwegian shipowning community, international shipbuilding partnerships and what Norwegian owners will require from the next generation of vessels and maritime solutions.

16:19

THE TURKISH SHIP YACHT EXPORT INDUSTRY PERSPECTIVE

Cihan Bayrak

Board Member, Turkish Ship, Yacht & Marine Services Exporters Association (GYHİB)

Türkiye's maritime industry, existing Norwegian–Turkish relationships and opportunities for deeper industrial cooperation.

16:24

HAVILA KYSTRUTEN – BUILDING THE NEXT GENERATION OF COASTAL SHIPS

Bent Martini

CEO, Havila Kystruten

Experience from Norwegian–Turkish cooperation on low-emission coastal ships, including Havila Capella, winner of the Next Generation Ship Award at Nor-Shipping.

16:29

FJORD1 – THE LAVIK–OPPEDAL PROJECT

Geir Mjelde

CEO, Fjord1

Presentation of Fjord1's Lavik–Oppedal project and its relevance to the next generation of ferry operations and Norwegian–Turkish maritime cooperation.

03 16:34–17:30

WHAT WILL WE BUILD NEXT?

16:34

THE GREEN AND DIGITAL MARITIME TRANSITION

Tom Kleppestø

General Manager, Maritime Oslofjord Alliance

A maritime cluster perspective on the capabilities, technologies and partnerships needed for the next generation of shipping — and where Norway and Türkiye can develop solutions together.

16:37

NEOCLEAN TANKERS – THE NEXT GENERATION OF SUSTAINABLE CHEMICAL TANKERS

Ferhat Acuner

Vice General Manager, ÇEKSAN Shipyard

ÇEKSAN’s fourth-generation chemical tanker concept combines diesel-electric propulsion, batteries, shore charging & cold ironing and advanced energy management. The presentation will explore the project’s ambitions for lower fuel consumption and emissions, zero-emission port operations and opportunities for a Norwegian partner.

16:50–17:30 MAIN CONVERSATION · CONTINUED ON THE NEXT PAGE

04 16:50–17:30

WHAT CAN WE DEVELOP, BUILD AND SCALE TOGETHER?

A conversation exploring opportunities for Norway–Türkiye cooperation on the next generation of green maritime solutions.

MODERATED BY **Dilek Ayhan | Founder & Managing Director, Ocean House**

01
Geir Mjelde
CEO, Fjord1

02
Bent Martini
CEO, Havila Kystruten

03
Siv Remøy-Vangen
CEO, Norwegian Electric Systems (NES)

04
Eirill Bachmann Mehammer
Director, Green Shipping Programme

05
Arne Kristian Dahl

CONVERSATION THEMES

01 Where are Norway and Türkiye already strongest together?

02 Which vessels, technologies and value chains should we develop next?

03 How do we finance and scale joint projects, share risk and make them commercially viable?

04 What could we achieve together that neither country could achieve as effectively alone?

Closing round: What tangible outcome would you like to see from stronger maritime cooperation one year from now?

An opportunity to continue the conversation and explore potential partnerships.

17:30–19:00 RECEPTION & NETWORKING
